PETIT

Parental Education together with IT - Support for the New Generation

A PROJECT FOR PARENTS, IN SUPPORT OF CHILDREN.

The project **target group** is made up of parents aged between 20 and 55, with educational disadvantage, who have completed first level of education, and who have children aged between 6 and 14 years old.

Specific objectives:

- improving the family climate through better communication between parents and children by providing the necessary information and knowledge for understanding child behaviour, communication and discipline techniques, so that they can educate their child in a fully informed way, by offering him/her the support needed for becoming a responsible adult
- fostering access for acquiring basic skills in using the information technologies (the Internet) in view of supporting and protecting the children in their relation with the network;
- acquiring, structuring and promoting educational good practices at European level.
